## Profile

Danna Lambert has spent 16 years developing Arrowhead Trails, Inc., a Colorado corporation that designs and constructs natural surface trails. An outdoor oriented lifestyle and a desire to work in both engineering and geology inspired Danna to utilize her education to provide outdoor opportunities to others and to promote a balanced way of living for herself and her children.

## Experience

### PRESIDENT, ARROWHEAD TRAILS, INC., SALIDA, COLORADO - PRESENT 2010

Assuming the Presidency of Arrowhead Trails, Inc. was a natural evolution for Danna. She previously provided ATI with primary business administration and operations as Vice President from 1994 to the present. Danna plans to continue her corporations evolution of providing experience based trail consulting and construction services to a wide variety of clients.

### VICE PRESIDENT, ARROWHEAD TRAILS, INC., SALIDA, COLORADO - (2001-2010)

While serving as Vice-President, Danna propelled Arrowhead Trails, Inc. in becoming a successful, respected, private trail company well known in the trail community and a leader in the development of sustainable trail guidelines and modern trail construction techniques.

### VICE PRESIDENT, ARROWHEAD TRAILS, INC., NEDERLAND, COLORADO (1994-2001)

Danna utilized her education to develop a unique start up company specifically conceived to design and construct natural surface trails in Colorado. She acquired numerous complimentary skills during the company's growth including accounting, payroll processing, business administration, and cartography to compliment her skills while developing multi-use trails.

## Education

Texas A&M University, College Station, Texas - Bachelor of Science, Engineering Geology, 1985. Thirty hours of post graduate Civil Engineering courses completed before moving to Colorado.

## Skills

At Arrowhead Trails, Inc., Danna has been responsible for trail planning, general contracting, and business administrative duties, for Arrowhead Trails, Inc. Her responsibilities and experience background include: Business and contract administration, marketing and web development, bid and proposal preparations, trails master planning, trail layout and design, GPS data collection and interpretation, fieldwork, GIS, trail map production, and all phases of trail construction.

Danna draws her construction experience from actively participating on trail construction projects. She has been responsible for estimating construction costs and timelines, developing engineered stake logs for trail maintenance plans, small bridge design and construction, materials estimations, quality control for the construction of ADA crusher fines trails, operating specialized equipment, and getting dirty with hand tools.

She has written numerous trails master plans and implemented trail construction projects for clients that include: the United States Air Force Academy (USAFA), Colorado State Parks, the United States Forest Service (USFS), The Bureau of Land Management (BLM), and numerous municipalities, home owner's associations, ski areas, and private land owners.

## Organizations

Danna is a member and supporter of several professional trail organizations including: Professional Trail Builders Association (PTBA), Salida Mountain Trails (SMT), American Trails, Bicycle Colorado, Bikes Belong, International Mountain Bicyclers Association (IMBA), Colorado Off-Highway Vehicle Coalition (COHVCO) and the Creede OHV Group.
